RBG-100

Intelligent Cash Recycler

Increased functionality provides innovation and capacity

Delivering frontline efficiency remains a critical imperative in today's branch environment. Efficient transactions lead to better customer engagements and ultimately, greater branch profitability. With multi-channel banking as well as remote and self-directed transactions on the rise, face-to-face customer interactions become more critical than ever before.

Glory's RBG-100 Intelligent Cash Recycler delivers the needed efficiencies in customer transactions, vault buys/sells, and day end balancing while also reducing cash exposure in the branch and providing improved security for clients and staff. All this adds-up to more efficient and customer-focused transactions, enabling delivery of an outstanding customer experience.

Glory Global Solutions is a World Expert in cash management, delivering technology and solutions that provide security, productivity and innovation to our customers. These solutions are supported by the technical expertise of GLORY Group of Japan, the pioneer in development and manufacture of money handling machines across the financial, retail, vending machine, amusement and gaming industries for nearly 100 years.

Across the world, Glory Global Solutions is trusted by thousands of organizations to ensure their cash is managed securely and efficiently while delivering the ultimate in productivity. 2,500 professionals, including over 1,300 service and support staff and 350 business partners cover over 128 countries delivering these solutions – wherever money moves.

Advantage: Glory

Up to 17,100 Note Capacity

RBG-100 accommodates up to 12,600 recyclable notes and 4,500 additional notes for deposit only.

Advanced Error Recovery

By incorporating innovative note reading technology into our error recovery process, the RBG-100 can ensure a balanced cash inventory by automatically performing a partial cassette verification as needed.

Configurable Cassettes

By using a split cassette to hold the two least dispensed denominations, the RBG-100 minimizes footprint and maximizes efficiency by utilizing only five cassettes, along with the collection/overflow drawer, to store up to seven denominations and to recycle six.

Continuous Feed Hopper

With a 300 banknote non-fixed entrance, the RBG-100's continuous feed hopper aids in the non-stop feeding of notes during large transactions. This not only enables a financial institution to engage more with their customers due to lack of machine interruption, but also allows them to finish those transactions faster.

Enhanced Security

The UL-291 approved safe allows for overnight storage of banknotes in both the cassettes and the overflow/collection drawer.

RBG-100 Technical Information

Dimensions (H×W×D)	(with operation monitor)	48.0" × 16.5" × 38.7"
	(without operation monitor)	44.2" × 16.5" × 38.7"
	(under counter)	37.2" × 16.5" × 21.9"
